## ABOUT OUR INTERNATIONAL SUMMER SCHOOL

Since 2007, the International School of Economic and Administrative Sciences of Universidad La Sabana has developed the International Summer School each year, it is to deliver interdisciplinary courses taught by highly qualified international professors, with the aim to train students with a global vision.

The International Summer School has had the participation of professors all over the world, who have taught courses in topics such as Logistics, Marketing, Sustainability, Negotiation and International Trade, Finance, Economy and Creativity.

The courses, of between 36 to 42 hours each, are delivered in virtual and face-to-face modality for students and professionals of different fields, who are interested in expanding knowledge in their areas of study and/or work).

Besides teaching, lecturers spend quality time with our researchers, finding common grounds for future research and academic projects.
