行程 Itinerary:

DAY 1- Kaohsiung			
FRI., 13. 05. 2022			
Time	Program	Reminder	
07:20-	Departure	(Bus A) NCHU meeting point: square in front of the Administration Building	
08:30-		(Bus A) CCU meeting point: bus station next to the Activity Center	
08:20-		(Bus B) NCKU meeting point: Cheng Kung Lake of Kuang Fu Campus	
08:30-		(Bus B) NSYSU meeting point: MRT Sizihwan station Exit 2 (O1). All the participants will take the MRT to Martial Arts Stadium station (O9) to join the bus from NCKU at 09:10.	
10:15	Arrival in Mei-nong		
10:15-12:00	Indigo Dye DIY	Indigo dye is a well-known Hakka traditional art, let's get to know the origins and make your own unique indigo dye bag!	
12:00-12:30	Depart for lunch		
12:30-13:30	Lunch: Taiwanese cuisine		
13:30-14:15	Taiwanese snack DIY - Litchi Krispie Treats	Litchi Krispie Treats are also known as 雪Q餅. Let's put together the dried Litchi and marshmallow to make your own sweet and chewy treats!	
14:15-14:40	Travel to Dashu		

DAY 1- Kaohsiung

FRI., 13. 05. 2022

Time	Program	Reminder	
14:40-15:30	Tour and harvest pineapples	Pineapples cake is one of the most famous souvenir from Taiwan and fresh pineapples are grown in the nearby neighborhood, Dashu, the Kingdom of Pineapples. So, let's harvest some fresh pineapples together. * Bring your own container for fresh pineapples to go and enjoy on the way to Tainan.	
15:30-16:45	Travel to Tainan		
16:45-17:00	Check-In	New Dynasty Hotel in Tainan	
17:00-	Free time	* dinner on your own	

DAY 2-Tainan

Sat., 14. 05. 2022

Time	Program	Reminder
Until 08:45	Breakfast	
08:45-08:55	Check-Out	
09:00-09:40	Depart to museum	
09:40-11:00	Old Waterworks Museum	In 1897, W. K. Burton, a sanitation technician to the Governor-General of Taiwan, and Hamano Yashiro started an investigation of the water resources and water quality in Tainan. Later, the Old Tainan Watercourse project was launched in 1912. 
11:20-12:00	Travel to Wusanto Reservoir	
12:00-13:00	Lunch at Wusanto Huching Resort Hotel	
13:00-14:30	Yoichi Hatta Memorial Park	Yoichi Hatta Memorial Park is on the north side of Wushantou Reservoir, and was built to commemorate the designer of Chianan Irrigation Channel Yoichi Hatta. 
14:30-14:40	Depart to Guantian	
14:40-16:30	Water Chestnut Shell Bio-Charcoal Living Workshop & DIY Succulent Pot	Guantian is a major producing area for water chestnuts, otherwise known as trapa nantans or ling-jiao. More than 3,700 tons are harvested annually, so large amount of shells are disposed as agricultural waste. The research team has transformed waste into eco-friendly green biomass charcoal, with less pollution into the air. The green charcoals are also spread in the fields as fertilizer and improve soil quality; also used in the DIY succulent pots. 
16:30-	Return home	Bus A return to CCU, NCHU; Bus B return to NCKU, NSYSU

* The schedule is subject to change and the final schedule will be sent to participants before the event.
