Courses available	Credits: There is no minimum/maximum number of credits required for exchange students. HOWEVER, to fulfill Japan's visa requirements, exchange students must attend 6 classes or more, or conduct research more than 10 hours per week. Law / Economics / Commerce / Letters / Science and Engineering / Policy Studies / Global Management (Undergraduate Only) Exchange students should apply for a faculty that relates to their major at their home university. If there is no such faculty at Chuo, (Japan Studies, etc.), the choice of faculty should correspond to the courses the student would like to take. ◆ Japanese Language courses for int'l students are offered. ◆ If students focus on studying Japanese language at Chuo, we highly recommend they take at least one or two academic courses from the regular curriculum in parallel with the above-mentioned Japanese language courses and Japanese studies. * This will give students more opportunities to study in a regular classroom with degree-seeking international students as well as Japanese students. ◆ Note: The Graduate schools of Economics, Commerce, Letters and Policy Studies offer <u>very few</u> academic courses taught in English. Japanese Language Courses: ◆ Japanese language courses are Undergraduate level courses. Though the courses are open to Graduate students, they cannot obtain credits for Japanese language courses. ◆ If a student has no language proficiency and wishes to study Japanese, they will need to study Hiragana and Katakana (reading AND writing) before arriving in Japan. ◆ The Intensive Beginner Course is a set of 2 classes, and students must take all 2 classes each week. These classes may cause clashes with other academic courses that students need to take. Therefore, if students have any essential academic courses to take at Chuo, they are strongly recommended to consult with the International Center of Chuo at the earliest opportunity before deciding to apply for the Chuo exchange program. ◆ Japanese language courses are primarily offered on the Tama Campus, and the intensive courses are only offered at Tama. ◆ Two Japanese language classes are offered on the Korakuen Campus for Science and Engineering major students. The course level is approximate JLPT N3 level.

Courses available	◆ Everyone is required to belong to a lab and conduct research. ◆ It is very important for applicants to have a clear idea of their research theme and to know which lab they want to belong to before they start applying for the exchange program in order that they may have a productive and fulfilling study period during their exchange. We look forward to receiving prepared and enthusiastic students through our exchange program. ◆ Supervising Professor: http://global.t.u-tokyo.ac.jp/t-cens_EAP/supervising-professor/
