DIFFERENCES OF STUDYING IN GERMANY

- My name is Max
- I'm 23 years old
- I study Business Information Systems M.Sc. at TU Darmstadt
- I live North of Darmstadt in a smaller village
- My hobbies are traveling, eating good food
- I played the 2nd violin in an orchestra
- I also love riding the bike and wandering
- My favorite football team is Eintracht Frankfurt

DIFFERENCES OF STUDYING IN GERMANY

- There are mostly no attendance checks in class
- Learning is strongly self-directed
- Similar: Some courses have homework assignments
- Generally recommended to at least visit some lectures, especially for social reasons
- Normally only one final term that decides the full grade
 - But sometimes homework assignments
- A lot of courses have more students (especially in business and computer science) compared to Taiwan

But rooms are very scarce at the Studierendenwerk. Apply early! Own apartment can cost more money.

NICE PLACES ON
CAMPUS

221-QM

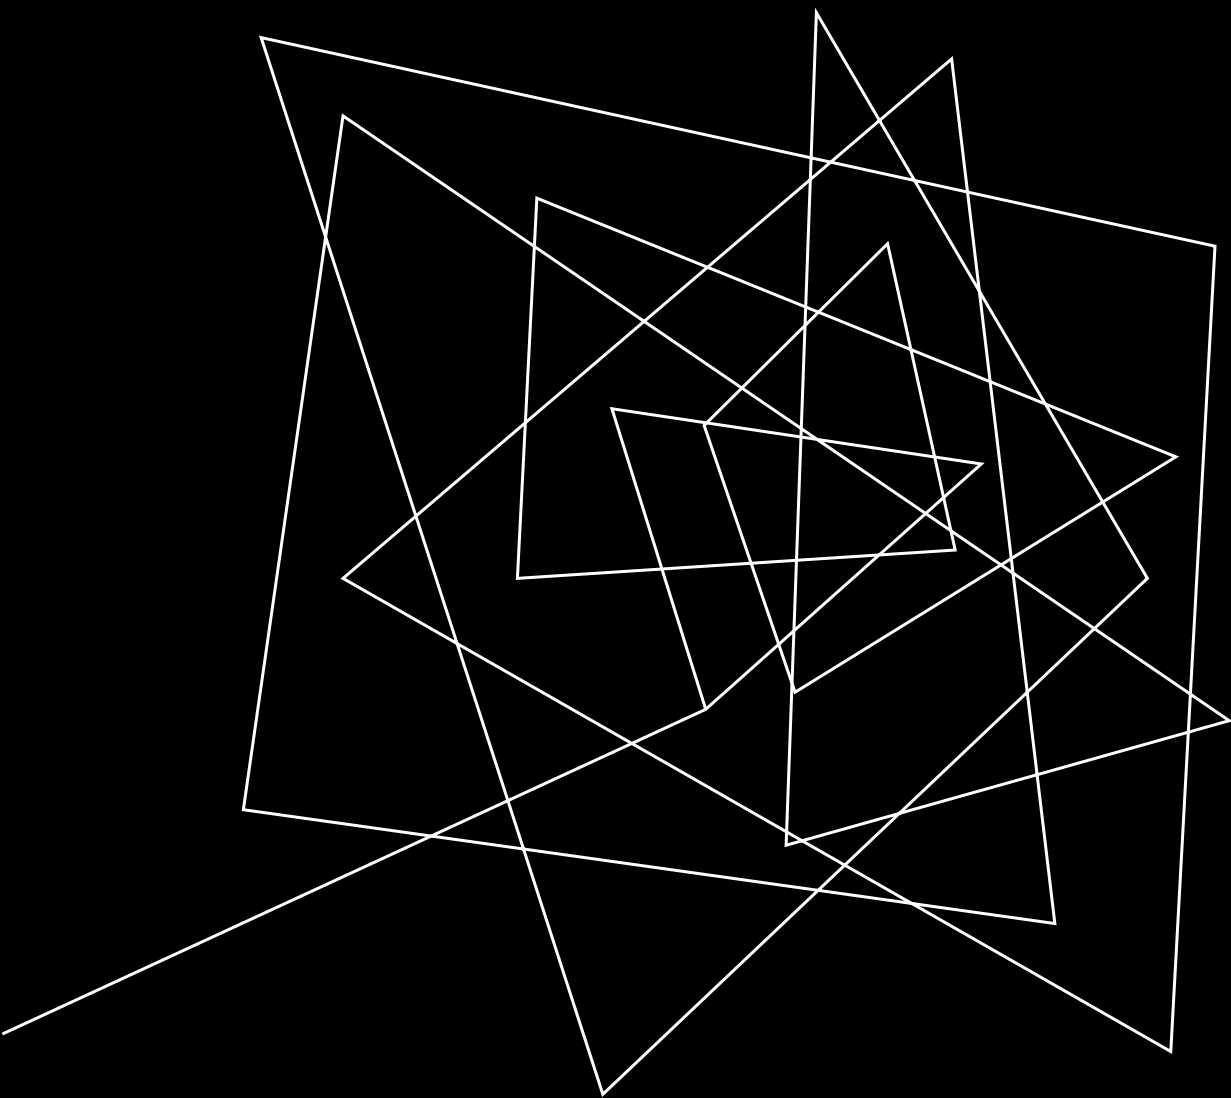

A large, leafy tree in a park setting with the text 'HERRNGARTEN' overlaid. The tree is on the left side of the frame, with its trunk and branches extending upwards and outwards. The leaves are a vibrant green, and the sunlight filters through them, creating a dappled pattern on the grass below. In the background, other trees and a grassy area are visible, with a few people sitting on the grass in the distance. The overall scene is a peaceful park environment.
