International students and buddies

Buddy programme

The International Office of the Faculty of Architecture organizes a buddy programme to support students from abroad during their start and their studies at the TU Darmstadt. All students of the faculty can participate in this programme. For local students who take part in one of the exchange programmes (like e.g. Erasmus+) participation in the buddy programme is mandatory.

The tasks of the buddies include, for example

- support after the arrival in Germany like e.g. with administrative procedures and accommodation
- establishing the contact between the students from abroad and the students of the Faculty of Architecture at the Technical University of Darmstadt.
- the settling in Darmstadt and at the Technical University of Darmstadt to facilitate through joint activities.
- giving advice during the semester.
